DUBAI REAL ESTATE TECHNOLOGY

Ask Dave Real Estate Tools

The desktop productivity tool that eliminates the repetitive tasks slowing your agents down every single day.

14+	1,500+	0
BUILT-IN FEATURES	EDUCATION FLASHCARDS	CRM CHANGES

Works alongside any CRM — no IT approval needed — Windows & macOS

THE PROBLEM

Your agents repeat the same tasks hundreds of times a week.

Manual Dialling

Copy number from CRM, open Phone Link, paste, dial. Every. Single. Call. Multiply by 50+ calls a day.

WhatsApp Friction

Save number to contacts first, find in WhatsApp, type the same intro message. Dubai runs on WhatsApp – this should be instant.

Scattered Notes

Call notes in sticky notes, notebooks, random Word docs. Nothing is searchable or organised by client. Notes don't follow the agent.

Forgotten Follow-ups

No system for 3-day, 15-day, 30-day callbacks. Leads go cold. Viewings aren't booked while the client is still warm.

ESTIMATED TIME WASTED PER AGENT

45+ min

every day on tasks that should take seconds

THE SOLUTION

Everything an agent needs, nothing they don't.

Click-to-Dial

Highlight any phone number, press Ctrl+Space, click Dial. Opens the call instantly via Phone Link. No copy-paste, no manual entry.

Click-to-WhatsApp

Same flow — highlight, Ctrl+Space, click WhatsApp. Choose desktop app or web. Message is ready to send in seconds.

Smart Text Extraction

Highlight a block of text — the app extracts phone, email, name, and property unit automatically. Also detects standalone email addresses.

WhatsApp & Gmail Templates

6 WhatsApp + 6 Gmail templates for common scenarios. Each is editable. Placeholders like {name}, {number}, {email}, {unit} auto-fill from the contact card.

OneNote Integration

Auto-creates structured OneNote pages organised by role — Tenant, Landlord, Buyer, Seller, Investor — with qualifying questions pre-filled. General Notes lets you jot freeform notes mid-call and push them to OneNote with one click.

Dubai Real Estate Forms

Sales, Rentals, Off-plan, and agent-to-agent commission forms. Send directly via WhatsApp or Gmail. Plus internal KYC forms with download.

Google Calendar

Book viewings and consultations. One click creates a calendar event with contact details pre-filled. Follow-up reminders at 7, 15, and 30 days.

UAE News Feed

Live news from 12 UAE real estate sources. Stay informed on market trends without leaving the app.

Meeting Transcriber

Education & Training

Record from your phone mic over WiFi or directly from your laptop mic. AI transcribes locally — no audio leaves your device. Copy the transcript for notes or ChatGPT.

1,500+ flashcards across 10 decks. RERA exam prep, property law, sales, and Dubai market knowledge. Spaced repetition with mastery tracking.

HOW IT WORKS

From number to action in under 3 seconds.

No training needed. No setup meetings. Install and go.

1

Install

Double-click the installer. No admin rights needed. No IT department involved. App starts automatically on login and sits in the system tray.

30-second setup

2

Highlight Text

From any CRM, website, email, or PDF. Highlight a phone number, an email, or a whole block of text. Press **Ctrl+Space**. The compact window appears with the extracted contact info.

Works with any CRM

3

Take Action

Click Dial to call via Phone Link, WhatsApp to message, or Expand to see the full panel with templates, forms, calendar, and more.

Dial + WhatsApp + Templates in one flow

4

Capture & Follow Up

Click OneNote to create structured notes, or use General Notes to jot freeform thoughts mid-call and push them to OneNote. Book viewings into Google Calendar. Set follow-up reminders at 7, 15, or 30 days.

Notes + calendar in 2 clicks

5

Repeat

Every call, every lead, every follow-up. The same flow, every time. Consistent, fast, nothing falls through the cracks.

50+ calls/day, zero friction

WHY ASK DAVE REAL ESTATE TOOLS

Zero Security Risk

Doesn't touch the CRM. Doesn't scrape portals. No data leaves the agent's machine. IT can approve it in minutes.

Zero Cost

No subscription fees. No per-seat licensing. Uses free tiers of Google Calendar, OneNote, and WhatsApp.

Zero Training

If an agent can highlight a phone number, they can use Ask Dave Real Estate Tools. The UI teaches itself. Install and go.

Works With Everything

Any CRM. Any browser. Any email client. Phone Link on Windows. WhatsApp Web or Desktop. OneNote. Google Calendar.

Portable Notes

Notes live in the agent's personal OneNote. If they move firms, their client knowledge moves with them.

Built for Dubai

UAE phone number formatting. WhatsApp-first communication. RERA contract forms. UAE news feed. Dubai-ready templates.

Give your team their time back.

Ask Dave Real Estate Tools is ready to deploy. Install it on your team's desktops and see the difference from day one.

PLATFORM	INSTALL TIME	COST
Windows & macOS	**30 Seconds**	**Free**

Currently optimized for Android + Windows. macOS and iPhone support are in active development. If you encounter any issues or have feature requests, please reach out via GitHub or email.

Ready to deploy? Let's get started.
